

**Sourcebook: Women Veterans in the Veterans Health Administration. Volume 3 ("Sourcebook Volume 3")****On-line Appendix B: Number of women Veteran VHA patients with each specific ICD-9-CM code, FY12**

Recommended citation: Frayne SM, Phibbs CS, Saechao F, Maisel NC, Friedman SA, Finlay A, Berg E, Balasubramanian V, Dally SK, Ananth L, Romodan Y, Lee J, Iqbal S, Hayes PM, Zephyrin L, Whitehead A, Torgal A, Katon JG, Haskell S. Sourcebook: Women Veterans in the Veterans Health Administration. Volume 3. Sociodemographics, Utilization, Costs of Care, and Health Profile. Women's Health Evaluation Initiative, Women's Health Services, Veterans Health Administration, Department of Veterans Affairs, Washington DC. February 2014.

Note: For each ICD-9-CM code, this table presents the number of women Veteran VHA patients (N=362,014) with at least one instance of the code in FY12 VHA and/or Non-VA (Fee) Medical Care outpatient and/or inpatient files. Only ICD-9-CM codes affecting at least 50 women Veterans in FY12 are displayed here. This means that some ICD-9-CM codes included in Online Appendix A do not appear in this table. Furthermore, not all of the 202 Conditions reported in Sourcebook Volume 3 appear in this table, because (a) some Conditions contain no ICD-9-CM codes affecting at least 50 women Veterans, and (b) some Conditions affect only men. See Sourcebook Volume 3 for details regarding the cohort of women Veteran VHA patients, the data sources used, and the procedure for mapping ICD-9-CM codes to Conditions and Domains.

Also note that the first three digits of an ICD-9-CM code herein refer to the numbers to the left of the decimal point; the following two digits, if any, refer to the numbers to the right of the decimal point. A similar approach applies to V codes.
